

FROM START TO FINISH

YOUR ADVANTAGE - OUR SKILLS, THE WHOLE PRODUCTION CHAIN IS IN OUR HANDS.

We cover all technical melting and remelting processes

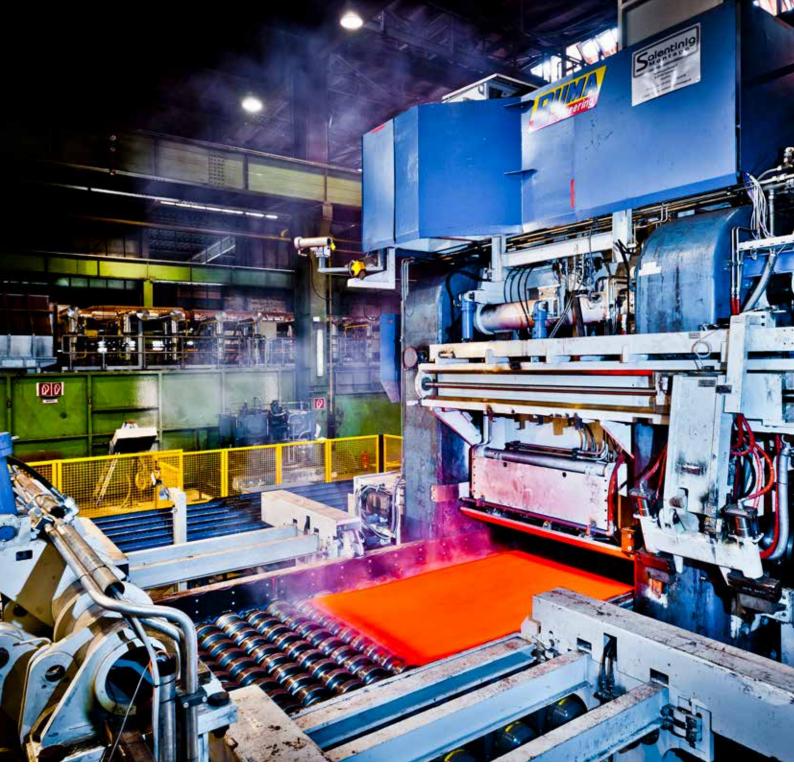

with state of the art equipment, e.g.

- » EAF / VOD
- » VID / VIM
- » VAR / P-ESR / ESR

for complex alloys.

In combination with our cross-rolling technology we are specialized in producing sheets and plates of Chromium-, Superduplex-, Superaustenitic-, Nickel-Base- as well as other Special Alloys.

The optimum combination of our possibilities enables us to support you with a homogeneous product having excellent material properties.

Two high mill

Plasma cutting unit

Laser cutting unit

Water jet cutting unit

TAILOR MADE FOR YOUR NEEDS

Dimensions hot rolled					
Width	max. 2,000 mm				
Length	max. 6,600 mm				
Thickness	2.0 mm up to 90.0 mm				
Weight	max. 2,000 kg				
Dimension	s cold rolled				
Width	max. 1,250 mm				
Length	max. 5,000 mm				
Thickness	1.0 mm up to 6.0 mm				
Edge finish					
Shear cut					
Laser cut					
Cold sawn					
Plasma cut					
Water jet cu	ıt				
Surface fin	ish				
As rolled					
Shot blaste	d				
Pickled					
Ground					
Milled					
-	re guide values, nents on request.				

Minimum order quantities						
Standard alloys (output of one slab)						
Steel	800 - 2,000 kg					
Ni-base-alloys	800 - 2,000 kg					
Titanium	600 - 1,100 kg					
Special alloys (output of one melt)						
VID	6 – 8 to					
EAF-VOD	25 – 35 to					
VIM (Ni-base-alloys)	5 alt. 10 to					
Minimum order auanti	ties for other melting routes					

Minimum order quantities for other melting routes on request.

CORROSION RESISTANT ALLOYS

MORE THAN JUST CORROSION RESISTANT

We rely on our state of the art technology and expertise to produce premium materials.

Excellent corrosion resistance, best workability due to our cross-rolling technology, closest tolerances and premium surface finishes decrease your costs and increase security in service.

Type of alloy	BÖHLER grade	PREN	Common name	DIN / EN	UNS	Standards	Main application

HEAT RESISTANT ALLOYS

NOTHING IS TOO HOT FOR US

Confidence is not enough in critical spheres.

Only hard facts count.

Excellent material properties like strength, toughness and creep resistance give long lasting solutions especially for critical areas.

Let us prove our reliability!

Type of alloy	BÖHLER grade	Common name	DIN / EN	UNS	Standards	Main application

SPECIAL ALLOYS AND TITANIUM

NO PROBLEM WITHOUT ANY SOLUTION

Are you in need of materials with good machinability, stable non-magnetic properties, a defined thermal expansion coefficient or other special solutions?

We supply the tailored products of the highest quality.

Rely on our expertise!

Properties	Type of alloy	BÖHLER grade	PREN	Common name	DIN / EN	UNS	Standards	Main application

Printed on chlorine-free bleached paper having no pollution effects.

GUARANTEED QUALITY AND SERVICE

All of our production steps from melting to delivery are subject to our Integrated Management System based on the ISO 9001:2015 and EN 9100:2018.

Each production lot is tested for the required metallurgical and mechanical values.

INFORMATION & TECHNICAL SUPPORT
