REFERENCE **STATEMENT OF COMPLIANCE relating on the restriction of the use of certain hazardous substances controlled by EU Directive 2011/65/EC (RoHS II) and subsequent amendments**

Dear Customer,

You can be sure that voestalpine Böhler Bleche GmbH & Co KG take care that our production and products are in accordance with the EU Directives 2011/65/EC, 2015/863/EC (RoHS II-Directive) relating on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Table 1: Substances forbidden by RoHS Directive

Substance	Maximum Concentration Values	
Lead	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Mercury	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Cadmium	0.01% w/w in homogenous material	(100mg/kg – 100 ppm)
Hexavalent Chromium	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Polybrominated biphenyls (PBB)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Polybrominated diphenyl ethers (PBDE)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Bis(2-ethylhexyl) phthalate (DEHP)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Butyl benzyl phthalate (BBP)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Dibutyl phthalate (DBP)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)
Diisobutyl phthalate (DIBP)	0.1% w/w in homogenous material	(1g/kg – 1000 ppm)

Our company obliges the suppliers to comply our code of contact. Our code of conduct was introduced in 2009 and is based on the ethical values of our company. By the code of conduct voestalpine Böhler Bleche GmbH & Co KG challenges the suppliers to absolute legal compliance depending on the local legislation as well as to obey international edicts or such imposed by the EC.

We hope that our information will sufficiently answer your questions. If you need more details, don't hesitate to contact us.

With best regards,

voestalpine BÖHLER Bleche GmbH & Co KG
